VISION

We aspire to be the recognized leader in the construction industry, committed to building manhole, pipe line works, power and industrial projects across the United Arab Emirates. We strive always to provide the highest value to our owners, customers and community with a critical eye towards safety, quality and service.

MISSION

- ❖ Ensure productivity and integrity of the company, staff and assets with emphasis on national development.
- ❖ Provide all services in accordance with Quality Management System.
- ❖ Train our work force and provide them an atmosphere to completely use their potentials.
- ❖ To expand our operations by consistently meeting client expectations and legal requirements, this includes the enhancement of customer satisfaction through the effective application of our processes for continual improvement.

CORE VALUES

- ❖ We will offer any construction, engineering, development and maintenance services the client requires to deliver a turnkey project.
- ❖ We will ensure that each service offered is the best and most cost-effective in the market, and take the company capabilities wherever the client needs us, in any location.
- ❖ We are committed to quality assurance and health and safety controls at the highest international standard.
- ❖ We set high aspirations, plan responsibly and honour all commitments.
- ❖ We will execute projects on time and within budget while maintaining quality across the board.

Name : Bhaskaran Sudevan

Company Title : General Manager

Education : Diploma in Mechanical Engineering

Technical Board of Kerala, India

Diploma in Quantity Surveying

College of Estate Management (CEM), UK

Mr. Sudevan is responsible for Green Water Contracting company operations in the UAE. Responsibilities include for Project tendering, Project administration, Staffing, Financial administration and maintaining client relationships for the business development.

Experience

Profile : Mr. Sudevan has 24 years of experience in the cost engineering, planning and design of multi-disciplined infrastructure projects in UAE. The skills include the design / supervision of potable water transfer mains and distribution networks, sanitary and surface water drainage systems and irrigation systems.

From 1998 to 2012 - Almost 14 years working with Parsons International Ltd., Abu Dhabi, for their different Projects. Parsons is an International consulting firm to manage the detailed design services, construction management and supervision for the Roads and Infrastructure works. During this period I have gained extensive and diversified experience in Pre and Post contract administration of various fields like Roads, Bridges, Infrastructure works and Landscaping works.

The spectrum of my roles encompasses Quantity Surveying, Pre contract administration, Budgetary estimate with cash flow chart, Tender evaluation and reporting, Post contract administration, Evaluation and agreement of Variations, Payment certification, controlling of contract documents etc. I am very conversant with the Civil Engineering Standard Method of Measurement (CESMM3) and have knowledge in the FIDIC Condition of Contract.

During the period of 1988 to 1998, I worked as multi-disciplined experience in engineering design and construction industry in different positions in the UAE.

18	Ajman Free Zone Project Phase - 3	Project includes construction of 20 manholes and chambers. Work includes complete civil works for manholes and chambers.	Tourukat Emirates General Contracting, Ajman	4 Months	Completed

PROJECT DETAILS

Road Cutting, Supply & Installation of Power Cable at Jebel Ali

Work Description	: Work includes 30 m road cutting and re-installation, supply & installation of duct (300 m) with cable pulling, cable termination and DB modification works.
Client	: Al Gurg Automation & Controls L.L.C.
Duration	: 2 months, On-going.

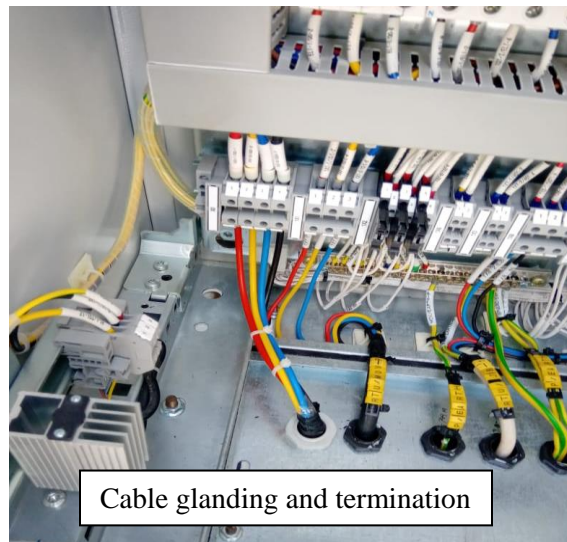

Excavation for uPVC duct pipe laying

Asphalt base course laying

After compaction of road work

Cable glanding and termination

SMDB Modification & New DB Installation Works

Work Description : Work includes SMDB modification and new DB installation as per DEWA requirements for approval.

Client : NOMAC Maintenance Energy Services OPC LLC.

Duration : 2 months, On-going.

Civil & MEP Works in Warehouse 8C at Jebel Ali

Work Description : Supply & Installation of Civil & MEP works with industrial DB installation for warehouse at Jebel Ali.

Client : NOMAC Maintenance Energy Services OPC LLC.

Duration : 2 months, Completed.

Civil works in Semi-Permanent Plant (SPP2) in Dubiotech - Al Barsha, Dubai

Work Description : Civil works which include site survey, levelling, gravel filling and foundation for all mechanical & electrical equipments.

Client : Bin Lahej Electro mechanical LLC.

Duration : 3 months, Completed.

DM Irrigation water chambers, different locations in Dubai

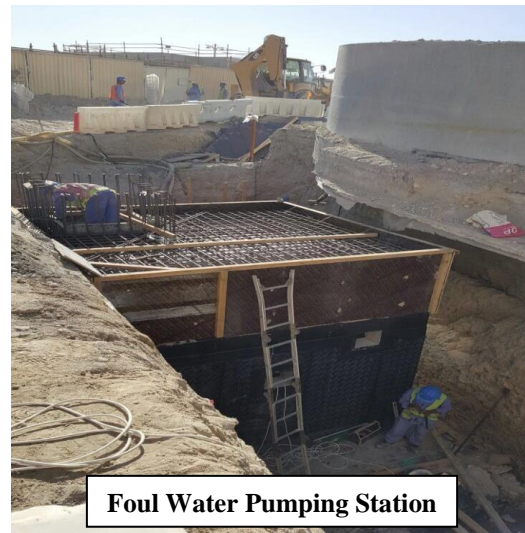

- Work Description : Construction of RCC water meter chambers, Foundation for RTU panels & thrust blocks. Scope of work includes survey & setting out, all earth works, plain concrete works, inside & outside water proofing works, RCC works, fixing cover and frame, final completion & handing over to client.
- Client : Al Gurg Automation & Controls L.L.C.
- Duration : 3 months, completed.

**New Commercial and Residential G+4 - Meydan, Dubai**

- Work Description : Subcontract work for Structural civil part of the G+4 building including 3000 Cu.M of concrete pouring, related shuttering works & 370 Tons of steel fixing.
- Client : Al Tayer Stocks LLC, Dubai.
- Duration : 4 months, completed.

Emerald Palace Kempenski - Palm Jumeirah, Dubai

- Work Description : The project consists of 8Km pipeline excavation, 125 no. of manholes, pollutant trap, pumping station, thrust blocks and equipment foundations. The work includes pipeline surveying, shop drawing and material & method statement submission for approvals, trench excavation, pipe laying with manholes and chambers.
- Client : Zener Electrical Contracting LLC, Dubai.
- Duration : 12 months, completed.

**Pumping Station****1000 x 1000 Chamber****Pollutant Trap****Foul Water Pumping Station**

Emerald Palace Kempenski - Palm Jumeirah, Dubai

Work Description : Block work to Lower Ground and first floor in connection with MEP.

Client : Sunrise properties LTD, Dubai.

Duration : 6 months, completed.

Mina Zayed Warehouse Conversion Centre (water pipeline protection) - Mina, Abu Dhabi

Work Description : Project includes external water pipeline and electrical cable protection. Work includes pipeline surveying, trench excavation, concrete protection, warning tape, cable tiles.

Client : Al Tayer Stocks LLC, Abu Dhabi.

Duration : 2 months, completed.

Mina Zayed Warehouse Conversion Centre - Mina, Abu Dhabi

Work Description : Complete Construction works for Service Building (G + 1) of size approximately 20M x 18M. Work includes excavation, blinding, RCC concrete, rebar, formwork, block work, plastering, waterproofing (complete civil works).

Client : Al Tayer Stocks LLC, Abu Dhabi.

Duration : 6 months, completed.

Yard Development Project at Mussafah - Abu Dhabi

Work Description	: The project includes the construction of yard levelling and strengthening. Work includes excavation, cart away surplus materials, backfilling the yard with yard strengthening material, etc.
Client	: Confident Contracting Co. LLC, Abu Dhabi.
Duration	: 2 months, completed.

Hamriya Free Zone - Phase-2

Work Description	: Sub-contracting for Shuttering, Steel work, concrete & Masonry work.
Client	: Vision International Building Cont. LLC, Ajman.
Duration	: 6 months, completed.

Repair Of Old Water Shed Ajman (FEWA work)

Work Description	: Project includes repair of the old water shed in Ajman, which were damaged due to storm. Work includes supply and fixing of new sandwich panels as per FEWA regulations.
Client	: Federal Electricity & Water Authority (FEWA).
Duration	: 3 months, completed.

G+1 Villa Work

Work Description	: The works includes complete Civil, Electrical and Plumbing works of whole villa at Al Rawda Villa No. 70.
Client	: Skyline General Trading Co.
Duration	: 10 months, completed.

WORKERS HANGOUT SHEET

SAFE MANUAL HANDLING OF MATERIALS

- When any heavy object is to be lifted and carried to another point, first inspect and clear the area and route over which the project is to be carried. Be sure there is nothing in the way that might cause slipping or tripping.
- Inspect the object to be lifted to determine how it should be grasped. Make sure it is free of sharp edges, protruding nail points, slivers, or other hazards that might cause injury to the hands or body. Wear gloves to protect hands.

LIFTING LOADS

- Incorrect lifting methods require unnecessary effort and often cause strain or other types of Injury. When it is necessary to lift any object which is difficult for one person to handle, ask for help.
- The safest way to lift is actually the easiest way to lift.

WORKERS HANGOUT SHEET

1. Get a secure footing.
2. Bend at the knees to grasp the object.
3. Keep the back straight and as nearly upright as possible.
4. Get a firm hold.
5. Lift gradually by straightening the legs, keeping the back as nearly straight as possible.

The same procedure should be observed when sitting loads down.

The two most common injuries that occur in our industry are back strain. Low back pain is the most common ailment. The misconception that back injuries are only caused by improper lifting hurls us into a false sense of security. Overexertion, Overextending, Overreaching and improper bending are some of the many causes of low back pain. Most of the low back ailments are normally not of serious nature until we choose to ignore the warning signs. When this happens the backaches become chronic.

“USE GOOD POSTURE – KEEP BACK STRAIGHT”

WORKERS HANGOUT SHEET

Use proper material handling equipment where possible to save time and strain.
Use ladder, strain when climbing or descending. Don't jump!
Bend Knees when working in low position. Don't Stop!

Never Overextend your reach – Stay close to your work.
Stop and stretch often during work periods.
Loosen your muscles before attempting to lift, especially in the morning.
Your tasks before easier if you have a good exercise program. Learn and practice good body mechanics. Don't exercise if you are having pain. Exercise every day. Always consult your doctor before attempting your exercise program and if you are experiencing pain while exercising. All exercise programs must start gradually.

WORKERS HANGOUT SHEET

HELPFUL HINTS FOR ON AND OFF THE JOB

Walk with good posture.

Keep Head high – chin tucked in.

Don't slouch. Don't wear imp- proper shoes.

Stay as close to your work and keep feet
being on tiptoes.

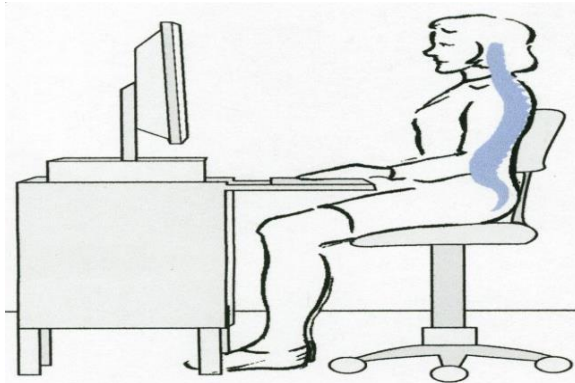

Don't overextend your reach by
Flat on floor

WORKERS HANGOUT SHEET

Do's

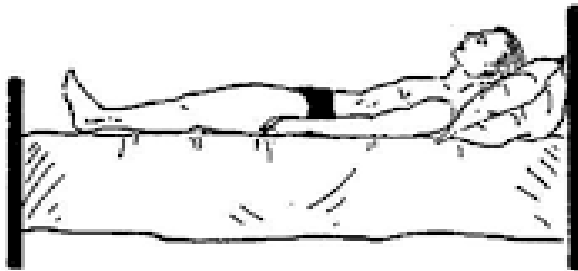

Keep feet flat on the floor when sitting. Your Back should be firmly against the back of the back.

Don'ts

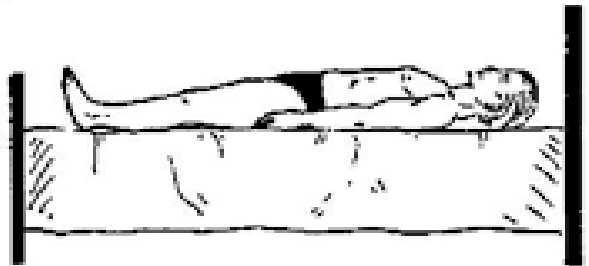

Don't slump. Keep chair close to your work. Avoid excessive leaning and arching your chair.

Don'ts

INCORRECT

Do's

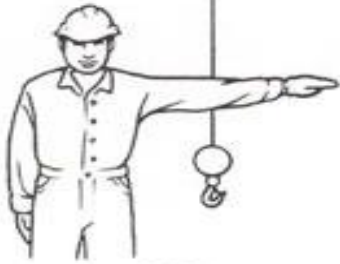

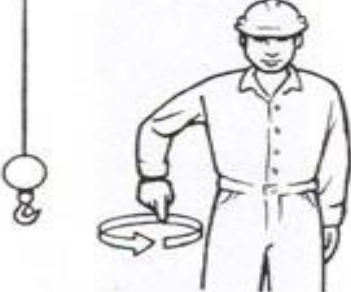

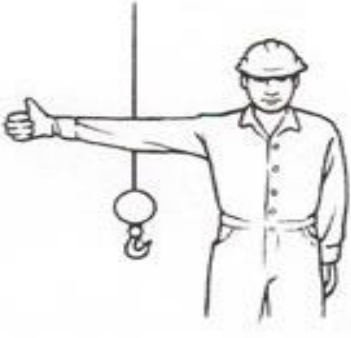

CORRECT

Sleep on firm mattress. Sleep on your side With your knees bent.

Don't sleep on soft, sagging mattress. Sleeping on your stomach will cause swayback.

SAFETY MANUAL

 <p style="text-align: center;">STOP Arm extended, palm down, move hand right and left.</p>	 <p style="text-align: center;">DOG EVERYTHING Clasp hands in front of body.</p>	 <p style="text-align: center;">MOVE SLOWLY Use one hand to give any motion signal and place other hand motionless in front of hand giving the motion signal. (Hoist slowly is shown as an example.)</p>
 <p style="text-align: center;">HOIST With forearm vertical, forefinger pointing up, move hand in small horizontal circles.</p>	 <p style="text-align: center;">LOWER With arm extended downward, forefinger pointing down, move hand in small horizontal circles.</p>	 <p style="text-align: center;">USE MAIN HOIST Tap fist on head, then use regular signals.</p>
 <p style="text-align: center;">USE WHIPLINE (Auxiliary hoist) Tap elbow with one hand, then use regular signals.</p>	 <p style="text-align: center;">RAISE BOOM Arm extended, fingers closed, thumb pointing upward.</p>	 <p style="text-align: center;">LOWER BOOM Arm extended, fingers closed, thumb pointing downward.</p>
